OSTIS | Module 1 : Swine Health and Disease Control

CONTENT

LESSON 1 : PRINCIPLES OF SWINE DISEASE CONTROL

- ▶ Topic 1.1 Introduction to Infection and Immunity
- 📄 Topic 1.2 Exposure Control and Biosecurity
- 📄 Topic 1.3 Disinfectants and principles of disinfection
- 📄 Topic 1.4 Environmental control
- 📄 Topic 1.5 Appropriate use of Antibiotics and Antibiotic Alternatives
- 📄 Topic 1.6 Disease Management Strategy for Modern Pig Production

LESSON 2 : PIGLET ENTERIC DISEASE: DIAGNOSIS, MANAGEMENT, AND CONTROL

- 📄 Topic 2.1 The Piglet Gut in Health and Disease
- 📄 Topic 2.2 Common Enteric Diseases of the Pig
- 📄 Topic 2.3 Common Sow Problems that appear as Enteritis in the Pig
- 📄 Topic 2.4 General Principles of Piglet Enteric Disease Control
- 📄 Topic 2.5 Diagnosing Piglet Diarrhea - Introduction to Laboratory Procedures

LESSON 3 : TRANSBOUNDARY AND EMERGING DISEASES OF SWINE

- 📄 Topic 3.1 ASF (Part 1)
- 📄 Topic 3.2 ASF (Part 2)
- 📄 Topic 3.3 Classical Swine Fever
- 📄 Topic 3.4 Pseudorabies
- 📄 Topic 3.5 PRRS
- 📄 Topic 3.6 General principles of transboundary disease control

LESSON 4 : MANAGING THE HEALTH OF THE SOW AND SWINE REPRODUCTION

📄 Topic 4.1 Reproductive Health of the Sow

Course Highlights

- Gain access to a set of very detail and practically applied information
- Tap into the knowledge and experience of top industry professionals
- Easy to follow format and content delivered visually and verbally
- Meet your learning objectives and goals in the comfort of your own location and with a timetable that meets you lifestyle

We make it easy for you

- Access all material and videos online from anywhere
- The platform is running all around the clock. You can continue the training from where you left it last time, at any time, from any location and from any type of devise
- You can register for the whole course or just for the modules of your interest
- We are not just online! Our OSTIS team of professionals will be with you along the way to help you and guide you.

Who Should Enroll :

Existing farmers and Beginner farmers that embrace learning and personal development

Professional staff of commercial farms that would like to better understand swine production and how to best prevent and manager common challenges that arise on the farm frequently

Service and product providers to the industry that would like to up the technical support they provide to their customers as part of their solution

How to register:

Online registration via www.agrischools.com

Registration fee 450 USD / USER / Module

Fee includes;

- Access to online course for 3 months after the registration date
 - Register before 1 December 2020, the time will start from 1 December 2020 onwards
 - Register after 1 December 2020, 3 months after the registration date
- Downloadable the course presentations (English version)
- Certificate of Completion
